= RESTART: C:\Users\Shahab\Desktop\myvoicerecognition\myvoicerecognition.py =

You are going to play a small game that picks a random word, EITHER a) from a predefined list by the computer and gives the user three attempts to guess the word OR b) from your direct inputs; a choice of phrases or words. -----

----Type ME for entering your inputs - Type YOU for the machine inputs.:

me

your word-1I am here

your word-2go away

your word-3here

your word-4there

your word-5me too

your word-6I am going to see my friends

I'm thinking of one of these words:

I am here, go away, here, there, me too, I am going to see my friends

You have 3 tries to guess which one.

Guess 1. Speak!

You said: hello

Incorrect. Try again.

Guess 2. Speak!

You said: go away

Incorrect. Try again.

Guess 3. Speak!

I didn't catch that. What did you say?

Guess 3. Speak!

You said: there

Sorry, you lose!

I was thinking of 'here'.

you

I'm thinking of one of these words:

apple, banana, right, orange, light, lemon, watermelon, berry, rice, cherry, very,
computer, who is that, should I leave now

You have 3 tries to guess which one.

Guess 1. Speak!

I didn't catch that. What did you say?

Guess 1. Speak!

I didn't catch that. What did you say?

Guess 1. Speak!

I didn't catch that. What did you say?

Guess 1. Speak!

You said: watermelon

Incorrect. Try again.

Guess 2. Speak!

You said: rice

Correct! You win!
